Info sheet Supplier Invoicing Process

for

Konica Minolta Business Solution Deutschland GmbH
and
Konica Minolta Business Solution Europe GmbH

▮ Status: 06.2019

▮ Version: 1.0

Konica Minolta considers itself a trendsetter and driver of innovation – achieving business success for our customers and business partners. As part of our efforts to continuously improve quality, efficiency and service, we are further adapting our incoming invoice process and centralising this across Europe, in our Global Shared Services (GSS).

With this information sheet, we would like to inform you about Konica Minolta's supplier invoicing process with an aim to process and pay supplier invoices in accordance to the industry best practice.

1. E-mail address used only for sending PDF/electronic invoices

Eingangrechnungen@konicaminolta.de

Please note that this email should only be used for sending electronic/PDF invoices and credit notes.

2. Requirements related to electronic invoices sent by email

DO's	DON'Ts
<ul style="list-style-type: none"> • Please scan only one invoice per file in True PDF, PDF, TIF or TIFF format. • Please include the invoice as the first page(s) and related supporting documentation as subsequent pages within the same image (file). • Invoice image should be black & white. • Please note that a maximum of 10 attachments can be sent in one email, maximum size of the email is 10 MB. • Ideally, you send us an email per invoice. 	<ul style="list-style-type: none"> • Please DO NOT send multiple invoices in the same file. • Please DO NOT password protect the images or send them as an archived file. • Please ensure there is no automated reply set up in the mailbox you use for sending your invoices. • Please DO NOT use the invoicing email addresses to send any other type of query or emails without invoices attached, as these will be not processed in the Konica Minolta system.

We are strongly encouraging you to send us your invoices in electronic format (PDF/TIF), if you have not been sending us electronic invoices yet. This is our preferred option as it is the most efficient way to process and pay invoices faster. This will save you some unpleasant instances where invoices can be delayed in the post as well as avoid effort in printing and postage costs.

3. Postal address for sending invoices to our centralised invoice mailroom
